A word from the head.. ***Celebrating Diversity through Music***

As a community we respect and value all people of the world and we believe that every curriculum should represent a range of cultures. As part of our curriculum development we would like to represent every culture in the music we listen to in school.

Out of interest, we have 29 different first languages in our community and 36 different ethnicity groups. Wouldn't it be amazing if all these cultures and languages could be reflected in the music we listen to.

So, please help us and send any links to the music from your culture that your children enjoy listening to. You can do this through the Seesaw App and I will ask teachers to make a folder in school.
